

Cut and Puncture Resistant Gloves

◆ Product Description

Woven from high-strength cut and puncture resistant material, combined with reinforced protection design, it has outstanding cut and puncture resistant performance, flexible and breathable, fit the hand, suitable for various high-risk cutting and puncture operation scenarios.

◆ Advantage Highlights

- Double protection against cutting and puncture
- High strength, wear-resistant and durable
- Breathable, sweat-absorbent and non-stuffy for long wear
- Flexible, fit and precise in operation
- Not easy to deform or damage

◆ Product Structural Description

The main body is woven from high-strength cut and puncture resistant fibers, with key reinforcement treatment on finger tips and palms to improve protection performance, anti-slip texture on the surface to enhance grip, elastic wristband to prevent falling off, light, thin, flexible and without restraint.

◆ Application Scenarios

Outdoor severe cold operations, cold storage warehousing and handling, cold chain logistics operations, low-temperature workshop operations, winter outdoor maintenance, ice and snow environment operations

◆ Product Data & Physical Properties

Grade 5, HPPE + nitrile matte gray-black blend, conforming to EN388 standards.
