

## Non-Woven Mask

### ◆ Product Description

Our non-woven fabric masks are made from carefully selected high-quality non-woven materials with advanced production technology. They are suitable for the general public during daily outings, shopping and office work, as well as for factory workers in workshop operations and environments with strict cleanliness requirements such as electronic manufacturing, and our non-woven fabric masks perform excellently in all these scenarios, safeguarding your health and working environment.

- Premium Materials、 High-Efficiency Filtration
- Skin-Friendly & Comfortable、 Excellent Air Permeability
- Ergonomic Fit、 Elastic Ear Loops
- Anti-Pilling 、 Anti-Static
- Scientific Structure、 Wide Applicability

### ◆ Product structure

- The outer layer is generally made of spunbond non-woven fabric. With a dense fiber structure, it features good strength and abrasion resistance, and can effectively block large particulate matter such as dust and droplets. The ear straps are usually made of elastic materials including elastic non-woven fabric, spandex or rubber, which boast excellent elasticity and durability, making them easy to wear and ensuring stable fitting.

### ◆ Typical Applications

- Non-woven fabric masks are widely suitable for daily commuting, home use and outings. Lightweight and thin, they are soft and fit the face comfortably, breathable and stuffy-free. They can effectively block droplets and dust, quietly guard every journey, and build a solid reassuring protective barrier for health.
