

Electric Shear Carbon

Brush

◆ Product Description

This electric scissors carbon brush is a special 90 carbon brush for circular knife cutting machines, made of high-quality carbon material, with good conductivity, wear resistance, strong adaptability to ensure stable operation of the cutting machine.

◆ Product Advantages

- Special Adaptation, Precisely Match Circular Knife Cutting Machine
- High-quality Carbon Material, Excellent Conductivity
- Wear-resistant And Anti-damage, Long Service Life
- Stable Current Conduction, Ensure Equipment Operation
- Convenient Disassembly And Assembly, Worry-free Maintenance And Replacement

◆ Product Structure

It is a regular block structure, integrally formed of high-quality carbon material, smooth surface without burrs, precise size to fit the equipment, tail can be easily connected to wires for conductive operation.

◆ Application Scenarios

It is suitable for maintenance and replacement of circular knife cutting machines, electric scissors and other equipment, used for current conduction to ensure normal operation, applicable to equipment maintenance in garment processing workshops.

◆ Product Data and Physical Performance

Main Material: High-quality Carbon Material, Good Conductivity
 Wear Resistance: High-density Carbon Material, Wear-resistant And Anti-loss
 Conductive Performance: Smooth Conduction, No Current Loss
 Adaptability Performance: Precise Size, Fit Equipment Interface
 Usage Performance: Not Easy To Break, Suitable For Long-term Operation

Material Code	Weight	Packaging
1.2.05.09.0005	0.01kg	Individually
