

Steel Mesh Protective

Film

◆ Product Description

This steel mesh protective film is transparent material, low viscosity design, firm adhesion and no residue when torn off, waterproof and dustproof, effectively protect steel mesh surface from scratches and pollution.

◆ Product Advantages

- Transparent Material, Steel Mesh Status At A Glance
- Low Viscosity Design, No Residue When Torn Off
- Firm Adhesion, Not Easy To Fall Off
- Waterproof And Dustproof, Excellent Protection Effect
- Scratch And Wear Resistant, Protect Steel Mesh Intact

◆ Product Structure

It is a transparent film structure, low viscosity surface design, uniform and thin texture, flat adhesion, smooth tearing without residue, waterproof and dustproof, closely fit steel mesh surface for protection.

◆ Application Scenarios

It is suitable for electronic factories and workshops, used for surface protection of various steel meshes, prevent scratches, pollution and moisture, low viscosity no residue, not affect subsequent use

◆ Product Data and Physical Performance

Main Material: Transparent Film, Thin And Light Texture

Viscosity Performance: Low Viscosity, No Residue When Torn Off

Protection Performance: Waterproof, Dustproof, Scratch And Wear Resistant

Fitting Performance: Flat Adhesion, Tight Fitting

Flexibility Performance: Flexible Texture, Not Easy To Tear

Item	Spec	Weight	Packaging
1.2.11.08.0024	200米*30CM	0.5kg	Individually
