

Floor Tape

◆ Product Description

Floor tape is a multifunctional adhesive product designed specifically for floor applications. Through precise material ratio and process innovation, it achieves core functions such as fixation, marking, and protection.

- Superior Adhesion and Long-Term Stability
- Extreme Environment Adaptability and Safety Assurance
- Environmental Compliance and Sustainable Development
- Removability and Surface-Friendliness
- Multifunctional Integration and Customization

◆ Product Structure

- Floor tape adopts a multi-layer composite structure, which consists of a base material layer serving as the load-bearing foundation, an adhesive layer for bonding, a functional modified layer for enhancing performance, and a surface treatment layer for protection and aesthetics. All layers work together to ensure core properties such as adhesive strength and weather resistance.

◆ Typical Applications

- Floor tape is widely used in four major fields: industry, commerce, residential decoration, and public facilities. It can meet diversified needs such as safety marking, fixation and installation, protection and repair, noise reduction and anti-slip, and accurately adapts to the usage requirements of different scenarios.

◆ Typical Product Data and Physical Properties

Material: PVC film

Adhesive layer: Acrylic pressure-sensitive adhesive

Colors: Yellow, Red, Black, Green, Blue, Black/White, Yellow/Black

Adhesive strength: $\geq 1.5\text{N/cm}$

Wear resistance: ≥ 1000 cycles

Anti-slip friction coefficient: ≥ 0.6

Temperature resistance range: $-20^{\circ}\text{C} - 80^{\circ}\text{C}$
