

Light Source Extension

Cord

◆ Product Description

This light extension cable is specially designed for hikvision, with stable signal transmission and small attenuation, flexible and durable cable, good interface contact for industrial vision light extension.

◆ Product Advantages

- Hikvision Brand Special, High Matching Consistency
- Stable Signal Transmission, Extremely Low Attenuation Loss
- Flexible And Fracture Resistant Cable, Durable In Industrial Environment
- Firm Interface Contact, Stable Power And Signal
- Convenient Extended Connection, Suitable For Vision System

◆ Product Structure

It is an extension cable structure with excellent core transmission, wear-resistant and anti-interference outer protection, fine interface, firm connection for industrial light long distance connection

◆ Application Scenarios

It is suitable for machine vision workstations, automatic inspection equipment and industrial light systems for light distance extension to ensure normal light workuracy

◆ Product Data and Physical Performance

Main Material: High Purity Transmission Core, Small Signal Attenuation

Transmission Performance: Stable Signal, No Transmission Delay

Protection Performance: Wear-resistant Outer Layer, Strong Anti-interference

Connection Performance: Tight Interface, Reliable And Stable Contact

Flexibility Performance: Bending And Tension Resistant, Not Easy To Break

| Item | Length | Weight | Packaging |
|----------------|--------|--------|-----------|
| 1.2.19.03.0153 | 3m | 0.1kg | 1pcs/box |
