

Writing Board

◆ Product Description

Writing boards are practical tools that combine writing, presentation, information recording, and display functions. With the core feature of easy operation, they are widely used in office, education, household, and public scenarios, serving as essential tools for enhancing communication efficiency and simplifying information transmission.

- Standard A4 Compatibility with Precise Securing
- Diverse Material Options for Scenario Compatibility
- Ergonomic Design for Comfortable Writing Experience
- Multi-Function Expansion with High Practicality
- Eco-Friendly, Durable, Safe and Reliable

◆ Typical Product Data and Physical Properties

Product Material: Plastic or PP

Durability: Withstands ≥ 1000 Opening and Closing Cycles

Abrasion Resistance: Withstands ≥ 500 Rub Cycles

Compression Resistance: Withstands $\geq 100N$ pressure without significant deformation

◆ Product Structure

- The product structure of clipboards is designed around the core functions of document securing and writing support, consisting primarily of a main board surface, a core clamping mechanism, protective reinforcement structures, and auxiliary components.

Availability:

Item#	Spec	Color	Packaging Method	Weight
1.3.11.11.0014	A4	Blue	50 pieces per carton	2.12kg
1.3.11.11.0015	A4	Blue	50 pieces per carton	2.12kg

◆ Typical Applications

- Clipboards leverage core advantages of standard size compatibility, strong document securing, portability, and durability. They are widely used in diverse scenarios including daily office work, business activities, education, and outdoor operations, serving as practical tools for document organization and writing support, and accurately meeting the efficient usage needs of different user groups.
