

## PETG Consumable

### ◆ Product Description

This petg consumable is kexcelled brand, the series the k5™ model, a special printing wire material for 3d printing, high-quality material, good formability, good transparency for various 3d printing scenarios.

### ◆ Product Advantages

- Kexcelled Brand, High-end And Reliable Quality
- The K5™ Model, Excellent And Stable Performance
- Petg Material, Good Formability Without Wire Drawing
- High Transparency, Beautiful And Exquisite Printed Parts
- Wide Adaptability, Universal And Convenient For 3D Printing

### ◆ Product Structure

It is a uniform filament structure, made of high-quality petg material, smooth and transparent surface, uniform diameter, good melt fluidity, flat surface after molding, not easy to deform for 3d printing.

### ◆ Application Scenarios

It is suitable for 3d printing scenarios such as creative design, model making, product prototypes and decorative ornaments, printing transparent and exquisite workpieces for various 3d printers.

### ◆ Product Data and Physical Performance

Main Material: High-quality Petg, High-quality Texture

Formability Performance: Good Formability, No Wire Drawing Or Stuttering

Appearance Performance: High Transparency, Smooth Surface

Mechanical Performance: Excellent Toughness, Not Easy To Brittle Fracture

Printing Performance: Good Fluidity, Strong Adaptability

Material Code	Weight	Packaging
1.3.11.23.0006	1kg	Individually
