

ESD Label

◆ Product Description

With stable anti-static performance, it can quickly release static electricity, stick firmly and not easy to fall off, clear and wear-resistant handwriting, suitable for marking various precision electronic components, waterproof and stain-proof, protecting products from static damage.

◆ Product Advantages

- Stable Anti-static Protect Products
- Firm Adhesion Not Easy To Fall Off
- Clear Handwriting Wear-resistant
- Waterproof And Stain-proof Easy To Preserve
- Suitable For Precision Components

◆ Product Structure

Adopt layered composite structure, the surface anti-static coating is uniform, the middle handwriting layer is clear and wear-resistant, the bottom back glue has strong viscosity, the whole is thin and flat, the edge is regular, not easy to warp and damage.

◆ Application Scenarios

Widely used in marking electronic components, semiconductors, precision instruments, circuit boards, electronic equipment and other products, used for anti-static protection and product classification marking, suitable for workshops, warehouses and other scenes.

◆ Technical Features

Material: Anti-static Paper + Special Back Glue;
 Anti-static Value: Meet Industry Standards
 Adhesion: Firm Adhesion Not Easy To Fall Off
 Wear Resistance: Handwriting Wear-resistant Not Fall Off
 Waterproof: Waterproof And Stain-proof Easy To Clean

Item Code	Color	Size	Packing Detail
1.3.17.01.0091	Yellow	40*60MM	/
1.3.17.01.0092	Yellow	30*30MM
