

Stainless Steel Workbench

◆ Product Description

This stainless steel workbench is a C-shaped workbench specially designed for industrial operations, laboratory work and workshop training scenarios. With high-quality materials, scientific structural design and abundant practical configurations as its core features, it combines stability, durability and convenience, and meets the diverse requirements of professional working environments.

- Premium Material Combination
- Precise Dimension Design
- Multi-functional & Complete Configuration
- Exquisite Craftsmanship
- Comprehensive Safety Protection

◆ Product Structure

- This stainless steel workbench adopts 40*40 European standard industrial aluminum profiles as the integral frame, with 20*40 aluminum profiles internally clamped with 3MM aluminum alloy panels on the upper and lower sides. the table top is made of T1.2MM 304 stainless steel brushed sheet filled with 25MM wooden boards, and the blank area on the top is a T18MM density board covered with T1.2MM stainless steel sheet. The table top is fixed by drilled holes on aluminum profiles plus self-tapping screws. It is equipped with 4 pcs of 38MM metal foot cups, 5 wire holes, 3 sets of 3-position grounding terminal strips, 2 stainless steel wristband hooks, a black bakelite socket mounting plate and an alarm mounting plate. Lighting lamp holes are reserved on the top, featuring a practical structure.

◆ Typical Applications

- This stainless steel workbench is widely applicable to industrial production workshops, electronic equipment maintenance areas, physical and chemical laboratories, vocational skills training classrooms, food processing auxiliary areas and medical device maintenance areas and other scenarios.

◆ Typical Product Data and Physical Properties

Main Frame Material: European Standard Industrial Aluminum Profiles

Auxiliary Frame Material: Aluminum Profiles + Aluminum Alloy Panels

Table Top Material: T1.2MM 304 Stainless Steel Brushed Sheet + T25MM Wooden Board

Overall Dimensions: W1000*D800*H1700MM

Top Auxiliary Structure: T18MM Density Board + T1.2MM Stainless Steel Sheet

Local Functional Structure: T25MM Density Board + Stainless Steel

Support Components: 38MM Metal Foot Cups

Connection Process: Fixed by Screw Installation

Installation Method: Horizontal Placement

Availability:

Item#	Size	Weight
1.4.01.01.0074	W1000*D800*H1700MM	83kg
