

Hand Rotary Valve

◆ Product Description

This hand-operated valve is made of high-quality material, with tight valve body sealing, light and smooth hand rotation, flexible switch, precise flow control, suitable for various fluid pipeline control, easy to install.

◆ Product Advantages

- Tight Sealing, Fluid Not Easy To Leak
- Light Hand Rotation, Smooth Operation Without Stuck
- Precise Flow Control, Convenient Adjustment
- Sturdy Material, Wear-resistant And Corrosion Resistant
- Easy To Install, Suitable For Various Pipelines

◆ Product Structure

It is an integrated valve body structure, with built-in sealing components and regulating valve core, reasonable hand-rotating knob design, regular valve body, strong interface adaptability, flexible switch and adjustment.

◆ Application Scenarios

It is suitable for chemical, water treatment, industrial pipelines, laboratories and civil pipelines, used to control fluid switch and flow adjustment, ensuring stable pipeline operation for multi-working conditions.

◆ Technical Features

Main Material: High-quality Metal
 Sealing Material: High-quality Seals
 Operation Performance: Smooth Hand Rotation
 Wear Resistance: Wear-resistant And Anti-damage
 Adaptability Performance: Strong Interface Adaptability

Item#	Weight	Packaging
1.4.22.00.0086	0.25kg	1pcs/box
