

Feeler Gauge

◆ Product Description

This feeler gauge is made of high-quality metal, with flat and smooth sheets, uniform thickness, high precision and strong flexibility, can be flexibly combined for various gap measurement, easy to operate.

◆ Product Advantages

- High Precision, Small Error In Gap Measurement
- Flat Sheets, Uniform And Standard Thickness
- Strong Flexibility, Not Easy To Break Or Deform
- Can Be Used In Combination, Suitable For Various Gaps
- Convenient Operation, Intuitive And Accurate Reading

◆ Product Structure

It is composed of multiple metal sheets of different specifications, flat and smooth sheets, regular edges without burrs, equipped with storage box, flexible combination, compact structure for easy carrying and use.

◆ Application Scenarios

It is suitable for mechanical maintenance, equipment installation, mold detection and laboratory measurement, used to accurately measure gaps and tolerances of various parts and equipment to improve precision.

◆ Technical Features

Main Material: High-quality Stainless Steel
 Precision Performance: Uniform Thickness
 Flexibility Performance: Strong Flexibility
 Surface Performance: Flat And Smooth
 Usage Performance: Wear-resistant And Anti-damage

Item#	Weight	Packaging
1.4.22.00.0088	0.08kg	1pcs/box
