

Hydraulic Quick Coupling

◆ Product Description

This hydraulic quick connector is made of 304 stainless steel, with a complete set of male and female heads, quick docking, excellent sealing, corrosion and high pressure resistant for hydraulic systems.

◆ Product Advantages

- 304 Stainless Steel, Rust-proof, Corrosion-resistant And Durable
- Complete Set Of Male And Female Heads, Convenient Docking Without Extra Accessories
- Quick Docking, Time-saving And Efficient To Improve Work Efficiency
- Tight Sealing, Not Easy To Leak Under High Pressure
- Wide Adaptability, Compatible With Various Hydraulic Transmission Scenarios

◆ Product Structure

It is an integrated 304 stainless steel structure with a complete set of male and female heads, built-in sealing components, precise docking for quick hydraulic pipeline connection.

◆ Application Scenarios

It is suitable for hydraulic equipment, engineering machinery, machine tools and mining machinery, used for quick connection of hydraulic pipelines to transport hydraulic oil.

◆ Technical Features

Main Material: 304 Stainless Steel

Sealing Material: High-quality Seals, Tight Sealing To Prevent Leakage

Docking Performance: Precise Fit Of Male And Female Heads, Smooth Docking Without Stuck

Pressure Resistance: High Pressure Resistant Design, Suitable For High Pressure Hydraulic Systems

Usage Performance: Wear-resistant And Durable, Suitable For Complex Industrial Environments

Item#	Model	Weight	Packaging
1.4.24.02.0621	KZF-G1/2	0.25kg	1pcs/box
