

Marble Inspection

Platform

◆ Product Description

This marble inspection platform is black, made of high-quality marble material, smooth and flat surface, excellent precision, strong stability, not easy to deform for various precision workpiece inspection and measurement.

◆ Product Advantages

- High-quality Marble, Hard and Dense Texture.
- Flat Surface, Excellent Inspection Precision.
- Strong Stability, Not Easy To Deform And Damage.
- Black Appearance, Simple and Elegant With Wide Adaptability.
- Multi-scenario Adaptability, Universal for Inspection And Calibration.

◆ Product Structure

It is an integrated platform structure, integrally formed of natural marble, the surface is finely polished, smooth and flawless, stable and heavy structure, not easy to wear for precision inspection.

◆ Application Scenarios

It is suitable for mechanical processing, precision instrument inspection, workpiece calibration and laboratories, used for flatness and precision detection of various workpieces to ensure product quality.

◆ Product Data and Physical Performance

Main Material: High-quality Marble, Hard And Durable.

Precision Performance: Flat Surface, Excellent Precision.

Stability Performance: Not Easy To Deform, Strong Stability.

Appearance Performance: Uniform Black, Pure Color.

Wear Resistance Performance: Dense Texture, Not Easy To Wear.

| Material Code | SPEC | Weight | Packaging |
|----------------|----------------|--------|--------------|
| 1.4.26.01.0016 | 100cm*80cm*5cm | 200kg | Individually |
