

Water Purifier

Product Description

Biobase scsj-ii-30l water purifier with water production rate 30l/h, adopting pf+ac+ro+di purification system, full english operation, us standard three-pin plug, 10a/220v, high water purity.

Product Advantages

- Multi-Stage Purification For Pure Effluent
- High Water Production Rate To Meet Needs
- Full English Operation Convenient And Professional
- Us Standard Plug Standard Adaptation
- Stable Operation And Convenient Maintenance

◆ Product Structure

The body has a regular structure, reasonable layout of purification system, simple operation panel, clear english display, good interface sealing, overall design balances practicality and stability, easy to install and maintain.

◆ Application Scenarios

Widely used in laboratories, scientific research institutions, medicine and chemical industry for preparing pure water for experiments and reagent preparation, meeting various high-precision experimental water needs.

◆ Technical Features

Body: High-Quality Engineering Plastics, Corrosion Resistant And Durable
 Filter Element: High-Quality Filter Material, Strong Adsorption
 Pipeline: Food-Grade Material, Safe And Non-Toxic
 Buttons: Waterproof Material, Sensitive Reaction
 Display Panel: High-Definition Material, Clear Display

Item#	Model	Weight	Packaging
1.4.26.10.0001	SCSJ-II-30L	22kg	Individually
