

## Teflon Tube

### ◆ Product Description

This teflon tube is made of high-quality teflon material, corrosion-resistant and high-temperature resistant, with smooth inner wall, smooth fluid transmission, good sealing performance for multi-scenario fluid delivery.

### ◆ Product Advantages

- Corrosion And Acid-alkali Resistant, Suitable For Complex Media
- High Temperature Resistance, Not Easy To Age And Deform
- Smooth Inner Wall, Unobstructed Fluid Transmission
- Excellent Sealing, Not Easy To Leak
- Flexible Texture, Easy To Cut And Install
- 

### ◆ Product Structure

It is a hollow tubular structure, integrally formed of high-quality teflon material, uniform tube wall, smooth inner wall without burrs, regular cuts at both ends, flexible and stable for fluid transmission.

### ◆ Application Scenarios

It is suitable for chemical, electronic, medical and food industries, used to transport corrosive, high-temperature and precision fluids, suitable for equipment connection and pipeline laying to ensure safe transmission.

### ◆ Technical Features

Main Material: High-quality Teflon  
 Flexibility Performance: Excellent Flexibility  
 Surface Performance: Smooth Inner Wall  
 Sealing Performance: Good Sealing  
 Usage Performance: Anti-aging

Item#	Weight	Packaging
1.5.07.05.0162	0.12kg	Individually
