

High-speed Refrigerated Centrifuge

Product Description

Lichen intelligent high-speed refrigerated centrifuge with precise timing and stable centrifugal force, full english interface and thai standard three-pin plug.

Product Advantages

- High Speed Centrifugation With High Separation Efficiency
- Precise Timing Control With Small Error
- Refrigeration Preserve Sample Activity
- Rotor Adapt To Multi Sample Processing

◆ Product Structure

Heavy shockproof body, closed centrifugal cavity, mute drive motor, smart english display panel and safety door lock design.

◆ Application Scenarios

It is used in biological laboratory and medical inspection for rapid separation and purification of blood, bacteria and nucleic acid samples.

◆ Technical Features

Body: Thickened Steel Plate, Shockproof And Stable

Cavity: Corrosion Metal, Low Temp Resistant No Deformation

Rotor: High Strength Alloy, Centrifugal Force Resistant

Sealing Door: Pressure Resistant Plate, Airtight And Sound Insulation

Refrigeration: Environmental Refrigerant, Stable Cooling

| Item# | Model | Weight | Packaging |
|----------------|-------------|--------|--------------|
| 1.5.07.11.0088 | LC-LX-H185C | 22kg | Individually |
