

Silicone Insulation Test Pen

◆ Product Description

This silicone insulation test pen is 20a extra sharp model, made of silicone insulation material, sharp tip, excellent insulation performance, accurate detection, easy to operate for various electrical insulation detection.

◆ Product Advantages

- 20A Extra Sharp, Accurate Detection Without Deviation
- Silicone Insulation, Strong Safety Protection
- Sharp Tip, Suitable For Fine Detection
- Easy To Operate, High Detection Efficiency
- Excellent Insulation Performance, Safer To Use

◆ Product Structure

It is a pen-shaped structure, the pen body is made of silicone insulation material, sharp and fine tip, non-slip and easy to hold, built-in detection element, compact structure for various insulation detection.

◆ Application Scenarios

It is suitable for electrical maintenance, circuit detection, equipment maintenance and laboratories, detecting insulation performance of electrical equipment, sharp tip for fine detection parts to ensure safety and accuracy.

◆ Product Data and Physical Performance

Main Material: High-quality Silicone, Strong Insulation

Detection Performance: 20A Extra Sharp, Accurate Detection

Insulation Performance: High Temperature And Aging Resistant, Reliable Insulation

Grip Performance: Non-slip Design, Comfortable To Hold

Durability Performance: Wear-resistant And Anti-damage, Long Service Life

Material Code	Weight	Packaging
1.5.07.11.0091	0.05kg	20pcs/box
