

## Full Polished Double Ring Wrench

### ◆ Product Description

This full-polish double box-end wrench adopts full polishing process, with box-end openings at both ends, tight engagement without slipping, labor-saving operation for various bolt and nut fastening work.

### ◆ Product Advantages

- Full Polishing Process, Smooth Surface And Easy To Clean
- Double Box-end Design, Suitable For Various Specifications Of Bolts
- Tight Engagement, Not Easy To Slip During Operation
- Sturdy Material, Torsion-resistant, Wear-resistant And Not Easy To Deform
- Labor-saving Operation, Suitable For Various Fastening Scenarios

### ◆ Product Structure

It is an integrated structure with box-end openings at both ends, the main body is fully polished, regular structure, uniform force, precise engagement, sturdy and durable for bolt fastening work.

### ◆ Application Scenarios

It is suitable for mechanical maintenance, auto repair, industrial installation and home maintenance, used for fastening and disassembling various bolts and nuts with full polishing design for multi-scenarios.

### ◆ Technical Features

Main Material: High-quality Alloy Steel  
 Surface Process: Full Polishing Treatment  
 Engagement Performance: Precise Opening  
 Torsion Resistance: Strong Torsion Resistance  
 Usage Performance: Wear-resistant And Durable
