

Chamfering Milling

Cutter

◆ Product Description

This chamfering end mill is a shendong brand, with 2-flute design, hard and wear-resistant material, sharp cutting, precise chamfering without burrs, suitable for various material processing to complete chamfering efficiently.

◆ Product Advantages

- Shendong Brand, Reliable Quality And Guaranteed
- 2-flute Design, Sharp Cutting And High Efficiency
- Precise Chamfering, Smooth Section Without Burrs
- Hard Material, Wear-resistant And Long Service Life
- Wide Adaptability, Processable For Various Materials

◆ Product Structure

It is an integrated tool structure, the cutter body is made of high-quality cemented carbide, 2 flutes symmetrically distributed, sharp and regular cutting edge, tight connection between shank and cutter body for precise chamfering.

◆ Application Scenarios

It is suitable for mechanical processing, hardware manufacturing and mold processing, used for chamfering and trimming of various metal and plastic workpieces, precise and efficient cutting to improve processing precision and appearance.

◆ Product Data and Physical Performance

Cutter Body Material: High-quality Cemented Carbide, High Hardness

Cutting Performance: Sharp Cutting Edge, Smooth Cutting

Wear Resistance: Wear-resistant, Not Easy To Chipping

Structural Performance: Integral Molding, Stable Connection

Adaptability Performance: Suitable For Various Processing Equipment

Material Code	Weight	Packaging
1.5.17.00.0029	0.06kg	1pcs/box
