

Solder Mask Ink

◆ Product Description

This solder mask is uv ultraviolet type, uniform texture, strong adhesion, fast curing speed, excellent insulation performance, wear and corrosion resistant, effectively protecting circuit boards for soldering protection.

◆ Product Advantages

- Uv Ultraviolet Type, Fast Curing Speed
- Strong Adhesion, Fit Circuit Board Without Falling Off
- Excellent Insulation Performance, Excellent Protection Effect
- Wear And Corrosion Resistant, Long Service Life
- Uniform Texture, Convenient And Uniform Application

◆ Product Structure

It is a liquid solder mask structure, uniform and delicate texture, moderate fluidity, containing uv curing components, which can be quickly cured by ultraviolet irradiation to form a dense protective film with excellent insulation.

◆ Application Scenarios

It is suitable for electronic circuit boards, circuit board manufacturing and electronic equipment maintenance, used for circuit board soldering protection, insulation and corrosion resistant, fast curing to protect circuits.

◆ Product Data and Physical Performance

Main Material: Uv Ultraviolet Formula, Excellent Performance

Curing Performance: Uv Curing, Fast Speed

Insulation Performance: Strong Insulation, Reliable Protection

Adhesion Performance: Strong Adhesion, Not Easy To Fall Off

Weather Resistance: Wear And Corrosion Resistant, Not Easy To Age
