

Constant Temperature Heating Station

◆ Product Description

This constant temperature heating table adopts a precise constant temperature control system, with uniform and stable heating, adjustable temperature and intuitive digital display, easy to operate for various heating scenarios.

◆ Product Advantages

- Precise Constant Temperature, Stable Temperature With Small Fluctuation
- Uniform Heating, Even Heating Without Dead Angles
- Intuitive Digital Display, Convenient And Precise Temperature Adjustment
- Simple Operation, Easy To Learn For Beginners
- Safe And Durable, High Temperature Resistant And Leak-proof

◆ Product Structure

It is an integrated constant temperature structure, equipped with precise temperature control module and heating components, flat and smooth tabletop, simple operation panel, compact for desktop heating work.

◆ Application Scenarios

It is suitable for electronic maintenance, laboratory heating, component preheating and manual diy, with excellent constant temperature performance to ensure work quality for various heating needs.

◆ Technical Features

Main Material: High-quality Flame-retardant Plastic
 Tabletop Material: High Temperature Resistant Ceramic
 Temperature Control Performance: Precise Constant Temperature
 Heating Performance: Fast Temperature Rise
 Insulation Performance: Excellent Insulation

Item#	Model	Weight	Packaging
1.5.19.05.0014	X4060TBD	5.2kg	1pcs/Carton
