

Serial Relay

◆ Product Description

This serial port relay adopts serial communication design, with precise and sensitive control, fast response, can realize remote intelligent control, strong load capacity and stable operation for automatic control.

◆ Product Advantages

- Serial Port Communication, Precise Control And Fast Response
- Support Remote Control, Convenient And Efficient Operation
- Strong Load Capacity, Suitable For Various Equipment
- Stable Operation, Low Failure Rate And Strong Durability
- Easy To Install, Suitable For Various Control Scenarios

◆ Product Structure

It is an integrated structure with built-in serial communication module and control components, good contact of contacts, compact and regular structure, suitable for various control circuits for precise control.

◆ Application Scenarios

It is suitable for industrial automation, intelligent control, remote equipment control and electronic equipment control, realizing precise control through serial communication for stable operation.

◆ Technical Features

Main Material: High-quality Flame-retardant Plastic

Contact Material: Precision Metal Contacts

Communication Performance: Stable Serial Transmission

Load Performance: Strong Load Capacity

Insulation Performance: Excellent Insulation

Item#	Model	Weight	Packaging
1.5.23.00.0055	ZQWL-IO-1BZRR32	0.15kg	1pcs/box
