

## Power Supply

### ◆ Product Description

This is a 10g standard poe power supply with up to 60w power, supporting ieee802.3af/at/bt protocols, stable voltage output for high-speed network devices.

### ◆ Product Advantages

- 10g Standard Specification, Synchronous Transmission And Power Supply
- Support Multiple Protocols, Wide Equipment Compatibility
- Sufficient Power, Stable And Reliable Power Supply
- Reasonable Voltage Adaptation, Safe To Use
- Industrial Grade Adaptation, Durable And Stable Operation

### ◆ Product Structure

It is a standard power supply module structure, standard circuit design, reasonable interface layout, good heat dissipation, stable output for high-power poe.

### ◆ Application Scenarios

It is suitable for network switches, wireless aps and cameras, providing remote poe power for network terminals, simple wiring for offices, security and computer rooms.

### ◆ Product Data and Physical Performance

Main Material: Flame Retardant Material, Safe And High Temperature Resistant

Power Supply Performance: Stable Voltage, Sufficient Power Output

Compatibility Performance: Multi-protocol Support, Strong Adaptability

Heat Dissipation Performance: Good Heat Dissipation, Long Time Stability

Interface Performance: Standard Interface, Firm Plug And Unplug

Item	Weight	Packaging
1.5.23.00.0057	0.3kg	1pcs/box

### ◆ Remarks

HORB has a technical hotline to answer your technical and usage-related questions.
