

Conveyor Belt

◆ Product Description

This conveyor belt is made of high-quality materials, with stable and smooth transmission, wear-resistant and tensile, fitting transmission equipment, high efficiency and not easy to slip for automatic conveying.

◆ Product Advantages

- Wear-resistant And Tensile, Long Service Life
- Stable Transmission, Not Easy To Slip Or Deviate
- Fit Equipment, Easy To Install And Strong Adaptability
- High Conveying Efficiency, Improve Work Flow Speed
- High-quality Material, Oil And Corrosion Resistant For Complex Working Conditions

◆ Product Structure

It is an integrated belt structure with flat and thick belt body, non-slip and wear-resistant surface, adaptable to transmission equipment, compact and tensile for automatic conveying.

◆ Application Scenarios

It is suitable for automatic production lines, electronic processing, food processing and logistics, used for continuous conveying of materials to ensure smooth production and improve efficiency.

◆ Technical Features

Main Material: High-quality Rubber/PU, Wear-resistant And Tensile

Surface Performance: Non-slip Texture, Not Easy To Slip Or Deviate

Tensile Performance: Sufficient Toughness, Not Easy To Break After Long-term Use

Corrosion Resistance: Oil And Moisture Resistant, Suitable For Complex Working Conditions

Usage Performance: Fit Equipment, Stable Transmission Without Noise

Item#	Model	Weight	Packaging
1.5.33.00.0018	KXF0DKDAA00	1.2kg	Individual
