

Mini Degluing Machine

◆ Product Description

The mini glue remover is a portable electric glue removal device specially designed for mobile phone screen repair. It is mainly used to remove stubborn adhesives such as OCA optical adhesive, hard glue residue and cold screen glue on mobile phone screens, and is a professional tool in the mobile phone repair industry.

- Ultra-portable, compact and lightweight design
- Highly efficient and professional glue removal capability
- Multi-functional all-in-one design
- Safe and reliable with quality assurance
- Professional-grade precision control

◆ Product Structure

- The mini glue remover features a compact ergonomic design, equipped with a 3000 RPM high-speed motor and a 3MM precision cutter. It boasts a 300g lightweight and portable advantage, and can efficiently remove various adhesive layers on electronic device screens through physical means, making it a professional and safe repair tool.

◆ Typical Product Data and Physical Properties

Housing Material: ABS Engineering Plastic
 Grip Material: Non-slip Rubber
 Cutting Tool: High-speed Steel
 Pressure Structure: Manganese Steel Spring
 Overall Dimensions: L290MM * Φ 40MM
 Vibration: $\leq 0.5\text{m/s}^2$
 Noise Level: $\leq 65\text{dB}$
 No-load Speed: 3000 RPM
 Input Power: 20W
 Power Supply Voltage: AC 100-240V

Availability:

Item#	Model	Weight
1.5.37.00.0007	NT-913	0.35kg

◆ Typical Applications

- The mini glue remover is widely used in scenarios such as professional repair of mobile phones and small electronic devices, second-hand digital refurbishment, personal DIY modification, and batch processing in repair shops. It adopts a physical glue removal method with multi-functional operations, adapting to both professional and personal needs, which not only improves efficiency but also protects the original components of the equipment.
