

Automatic Dispensing Machine

◆ Product Description

This full-automatic dispensing machine adopts full-automatic operation mode, with precise and uniform dispensing, controllable glue output, easy operation, suitable for various scenarios with stable and efficient operation.

◆ Product Advantages

- Full-automatic Operation, No Manual Intervention And Labor-saving
- Precise Dispensing, Uniform Glue Output Without Overflow
- Controllable Glue Output, Suitable For Different Dispensing Needs
- Stable Operation, Low Failure Rate And Strong Durability
- Convenient Operation, Quick To Learn And Improve Efficiency

◆ Product Structure

It is a full-automatic integrated structure with built-in precise dispensing module and control system, regular body, flexible and controllable glue output parts, compact and stable for dispensing work.

◆ Application Scenarios

It is suitable for electronic components, hardware products, jewelry processing and medical equipment, used for precise dispensing and sealing with full-automatic operation to improve production efficiency.

◆ Technical Features

Main Material: High-quality Alloy
 Dispensing Parts: Precision Metal, Smooth Glue Output Without Stuck
 Control Performance: Intelligent Control System, Precise And Stable Operation
 Wear Resistance: Wear-resistant Parts, Long Service Life
 Usage Performance: Suitable For Long-term Work, Convenient Maintenance

Item#	Model	Weight	Packaging
1.5.37.00.0023	983A	14kg	1set/carton
