

ESD Separate Suit with Work Cap

◆ Product Description

The anti-static split suit set consists of three components: an anti-static jacket, anti-static trousers, and an anti-static butterfly work cap. It is a piece of personal protective equipment (PPE) specially designed for electrostatic-sensitive environments, featuring three core functions: long-lasting anti-static performance, low particle emission, and dust resistance. It can effectively discharge static electricity generated by the human body and prevent damage to electronic components and flammable & explosive materials caused by electrostatic discharge (ESD).

- Straight Zipper For Easy Access
- Hoodless For a Neat Silhouette
- Integrated Full Protection
- Stable Antistatic Pproperty
- Breathable, Comfortable And Durable

◆ Product Structure

- Split design (zip jacket closure, fit pants), 5MM white one-size butterfly electrician cap, strap-type without sunroof/back elastic, reinforced strap outlet.

◆ Typical Applications

Suitable for electrician work, electronic workshops, precision operations, split design for mobility, full anti-static protection, firm anti-cracking cap, adapting to various needs.

◆ Typical Product Data and Physical Properties

Material: 5MM Checkered Fabric: 8% Polyester + 2% Conductive Yarn

Sizes: S# -8XL#

Colors: White、 Blue 、 Pink、 Yellow and other customized colors

Anti-static performance: $\leq 1.0 \times 10^9 \Omega$
