

Men's cotton vest

◆ Product Description

Specifically designed for keeping warm in winter, it adopts carbon fiber heating sheet technology, with three levels of intelligent constant temperature settings ranging from 40°C to 55°C. It is equipped with a 2200mAh fast-charging lithium battery, offering a battery life of up to 8 hours. The outer layer is made of windproof nylon fabric, and the inner lining is made of skin-friendly and breathable cotton. It features a stand-up collar and a slim-fitting cut. It is also machine washable.

- Super-strong warmth retention
- Intelligent temperature adjustment
- Long-lasting battery life
- Comfortable materials
- Convenient maintenance

◆ Product Structure

- The men's heated cotton vest features a stand-up collar and a slim-fitting design that conforms to ergonomics. The outer layer is made of polyester (polyester fiber), which is both waterproof and wear-resistant. The inner layer is lined with skin-friendly and breathable cotton, offering a soft and comfortable touch and capable of promptly wicking away moisture. All these structural elements work in harmony to create an excellent warm-keeping and wearing experience.

◆ Typical Product Data and Physical Properties

Fabric material: 100% polyester (polyester fiber)

Lining material: 100% polyester (polyester fiber)

Color: Black

Size: S# - 5XL#

Intelligent function: Heating

Portable power bank: 16000 mAh, 5V 2A

Size	Garment Length	shoulr widtht	Bust	Hem

◆ Typical Applications

- The men's cotton vest is widely used in multiple scenarios. In the work scenarios, outdoor workers and those working indoors without heating can rely on its waterproof and wear-resistant features, skin-friendly and breathable properties, as well as the heating function to enhance their comfort and work efficiency. In leisure and entertainment activities, it can keep you warm while fishing, watching sports events, or camping.
