

## SPU Slippers

### Product Description

This is a black spu anti-static slipper with six holes, esd on the upper, esd logo and made in china on the sole, heel strap, resistance  $1 \times 10^4 - 1 \times 10^8 \Omega$ , stable performance.

### Product Advantages

- SPU Material, Durable And Wear-resistant
- Six-hole Design, Breathable And Not Stuffiness
- Dual ESD Marks, Compliant And Qualified
- With Heel Strap, Stable To Wear
- Stable Resistance, Good Anti-static Effect

### Product Structure

Adopt SPU one-piece molding, six-hole breathable design, esd on upper, esd logo and made in china on sole, with adjustable heel strap, firm structure.

### Application Scenarios

It is suitable for anti-static places such as electronic workshops, semiconductor factories, clean rooms, laboratories, releasing human static electricity and protecting precision components.

### Technical Features

Main Material: Spu Anti-static Material  
 Surface Resistance:  $1 \times 10^4 - 1 \times 10^8 \Omega$   
 Product Color: Black  
 Production Technology: One-piece Molding Technology  
 Core Performance: Anti-static, Anti-slip, Wear-resistant

Item#	Size	Weight	Packing
