

Multi-Functional Safety Shoes

◆ Product Description

The multi-functional safety shoes are specially designed for harsh working environments, combining wear resistance and waterproofing to keep feet dry even in humid conditions. With built-in steel toe caps and steel plates, they provide dual protection, effectively resisting heavy object impacts and easily blocking sharp objects. the shoes are fearless of welding slag and iron filings, comprehensively safeguarding your foot safety.

- Anti-smashing protection
- Anti-puncture protection
- Waterproof performance
- High-temperature resistance protection
- Ergonomic design

◆ Product Structure

- The multi-functional safety shoes feature a suede leather + waterproof mesh fabric spliced upper, with a built-in dual protection structure of steel toe cap + steel midsole plate, paired with a high-abrasion-resistant rubber outsole. they integrate four core functions: anti-smashing, anti-puncture, waterproofing, and high-temperature resistance. The tongue is standard with a KANBO embossed logo and LA safety mark. the packaging includes a Chinese quality certificate and hangtag.

◆ Typical Product Data and Physical Properties

Material: Suede Leather + Waterproof Mesh Fabric + Steel Toe Cap + Steel Midsole + Rubber Outsole

Sizes: 34#-46#

Functions: Anti-smashing / Anti-puncture / Waterproof / Heat resistance

Steel Toe Cap Impact Resistance: $\geq 200J$

Compression Resistance: $\geq 15kN$

Puncture Resistance: $\geq 1100N$

High-temperature Resistance Range: $\leq 300^{\circ}C$

Coefficient of Friction: >0.4

Waterproof Level: Splash-proof

◆ Typical Applications

- Multi-functional safety shoes are suitable for various high-risk scenarios: in the construction industry, they can address impact and puncture risks; in power/ metallurgy industries, they are adapted to high-temperature environments, providing protection against welding slag burns and penetration by sharp components; in logistics/warehousing, they meet the anti-smashing requirements for heavy cargo handling and safeguard feet in damp warehouse environments.
