

Safety Shoes

◆ Product Description

Safety shoes are professional protective equipment specifically designed for high-risk industrial environments. Integrating multiple protective properties and user-friendly design, they provide comprehensive foot safety protection for fields such as electric power, chemical industry, and construction.

- Professional insulation protection
- Professional insulation protection
- Slip-resistant and oil-resistant outsole
- Anti-smashing, impact resistance and anti-piercing
- Breathable and comfortable design

◆ Product Structure

- Structural design of safety shoes: the upper features an outer layer of imported embossed cowhide + a middle layer of breathable mesh fabric / BK lining + an inner layer of skin-friendly suede, equipped with an arch support framework. the protective core includes European standard anti-smashing steel toes and Kevlar anti-piercing midsoles. The dual-density outsole has an outer rubber layer that is slip-resistant and wear-resistant, and an inner PU cushioning layer, supplemented by reinforced shoelaces and heel support

◆ Typical Applications

- Safety shoes are suitable for scenarios such as live electrical maintenance in the power industry, temporary electrical work, high-altitude operations, chemical storage, mechanical processing, welding, and heavy construction operations. through multi-dimensional protection, they meet the needs of various high-risk operations.

◆ Typical Product Data and Physical Properties

Fabric: Imported cowhide / Breathable BK mesh fabric

Steel toe: European standard iron steel toe

Outsole: Breathable high-elastic insole + PU non-slip outsole

Color: Black

Size: 35#-46#

Insulation performance: 6KV

Impact resistance: 220J

Piercing resistance: 1300N

Oil resistance: 8.2%

Availability:

Item#	Model	Color	Size	Packaging
1.1.04.08.1472	136144	Black	35#	1 pair/box 10 pairs/carton
1.1.04.08.1473	136144	Black	36#	1 pair/box 10 pairs/carton
