

## Anti-Static Long Tube Shoe

### ◆ Product Description

Made of professional anti-static material, long tube high-top design, can export human static electricity, non-slip soft sole, breathable and sweat-absorbent, light and comfortable, suitable for static-sensitive scenarios, protecting ankles and eliminating static hazards.

### ◆ Product Advantages

- Professional anti-static
- Long tube ankle protection
- Non-slip soft sole wear-resistant
- Breathable and sweat-absorbent
- Light and comfortable fit

### ◆ Product Structure

Composed of anti-static upper, anti-static rubber sole, high-top shoe tube and breathable lining, the shoe body has built-in anti-static fibers, the sole has stable conductive performance, the shoe tube can fit the ankle, and it is comfortable to wear without restraint.

### ◆ Application Scenarios

Widely used in static-sensitive scenarios such as electronic factories, semiconductor workshops and precision instrument workshops, can effectively export human static electricity, avoid static damage to electronic components, suitable for long-time work.

### ◆ Technical Features

Material: Anti-static canvas + conductive rubber sole

Anti-static value:  $10^6-10^9\Omega$

Shoe tube height: 32cm

Wear resistance:  $\geq 8000$  steps without damage

Weight: 0.55kg/piece

Material code	weight	Packaging method	color	size
1.1.04.09.1732	0.55kg	1 pr/box, 1 2 prs/ctn	yellow	38 -4 8
