

Cold-Proof Gloves

◆ Product Description

Made of multi-layer warm and cold-resistant material, the inner layer is skin-friendly and temperature-locking, the outer layer is waterproof and windproof, flexible and wear-resistant, fit the hand, can resist low-temperature environment, suitable for various severe cold outdoor and workshop operations.

◆ Advantage Highlights

- Low-temperature cold-resistant and temperature-locking
- Waterproof, windproof and warm
- Skin-friendly, breathable and non-stuffy
- Wear-resistant, durable and sturdy
- Flexible, fit and easy to operate

◆ Product Structural Description

The main body is integrally formed of special corrosion-resistant material, with thickened design to improve protection, anti-slip texture on the palm to enhance grip, curled cuffs for easy wearing, overall seamless sealing, and fit the hand without restraint.

◆ Application Scenarios

Outdoor severe cold operations, cold storage warehousing and handling, cold chain logistics operations, low-temperature workshop operations, winter outdoor maintenance, ice and snow environment operations

◆ Product Data & Physical Properties

Material: Multi-layer cold-resistant composite (skin-friendly thermal inner, waterproof/windproof/abrasion-resistant outer)
 Specs: Temp range -160°C~-250°C, length 60cm
 Core: Cryogenic protection, waterproof/windproof, thermal retention
 Practical: Flexible & durable, skin-friendly & breathable, non-stuffy
 Wearability: Snug fit, agile operation
