Dust-Free Socks

◆ Product Description

Dust-free socks are woven from clean-grade low-linting fibers, with no loose lint, debris or contaminants shedding. Breathable, skin-friendly and elastically fitting, they are specially designed for high-cleanliness environments to protect workshop cleanliness.

◆ Product Advantages

- Low-linting & clean
- No debris shedding
- Breathable & skin-friendly
- Elastic fit
- Exclusive for clean rooms

◆ Product Structure

Woven seamlessly with ultra-fine clean fibers, the sock body is dense without loose lint. The sock top is smooth and non-restrictive, with no dyeing or additives. The structure strictly controls the risk of fiber shedding and dust generation.

◆ Technical Features

Lint generation complies with clean-grade standards.
Extremely low fiber shedding rate.
Breathable, skin-friendly and non-irritating.
Wear-resistant, washable and shape-retaining.
Excellent dimensional stability.
Meet the performance requirements of clean textiles.

Item Code	Size	Color	Packing Detail
1.1.09.01.0005	Free size	White	1pr/bag 20prs/carton

◆ Application Scenarios

Suitable for high-grade clean environments such as biopharmaceuticals, electronic dust-free workshops, food processing, precision optics and semiconductor clean rooms, to avoid contaminating the working areas.
