

Stainless Steel Chair

Product Description

This stainless steel chair is made of high-quality stainless steel, equipped with designated chassis, gas rod, five-star feet, special foot cups and conductive chain, adjustable and anti-static.

Product Advantages

- Stainless Steel Material, Rust And Corrosion Resistant
- Adjustable Up And Down, Suitable For Different Needs
- Special Foot Cups, Strong Anti-slip And Stability
- With Conductive Chain, Qualified System Resistance
- Solid Structure, Suitable For Long-term Use

◆ Product Structure

It is made of stainless steel, matched with designated chassis, gas rod and five-star feet, with special foot cups and conductive chain, firm structure and adjustable.

◆ Application Scenarios

It is suitable for anti-static scenarios such as electronics factories, used as a work chair, adjustable height, stable anti-static performance to ensure work safety.

◆ Technical Features

Main Material: High-quality Stainless Steel
 Chassis Component: Special Chassis B32
 Gas Rod Configuration: Special Gas Rod CQ140
 Foot Cup Configuration: 4 Conductive Plastic Foot Cups +1 Metal Foot Cup
 System Resistance: $\leq 1 \times 10^9 \Omega$, Qualified
 Anti-static Performance

Item#	Weight	Packaging
1.2.03.04.0002	15kg	individually
