

Plastic Round Stool

◆ Product Description

This plastic round stool features a plastic seat paired with iron legs. It is moderately sized, with a thick yet hollow seat surface and a stable frame, providing reliable load-bearing capacity. Suitable for daily seating in various scenarios, it is comfortable and durable.

◆ Product Advantages

- Thick and comfortable plastic seat
- Stable and load-bearing iron frame
- Simple structure, small footprint
- Smooth surface, easy to clean
- Stackable design for space saving

◆ Product Structure

Round plastic seat with metal support; the legs are of tubular structure for even overall support. The seat features a hollow design, stable structure, simple installation, and reasonable load distribution.

◆ Application Scenarios

Suitable for workshop workbenches, canteens and restaurants, shop waiting areas, simple household dining chairs, extra seating for temporary events, etc., to meet the needs of convenient seating for multiple people and frequent use.

◆ Technical Features

- The seat is made of hard plastic, and the legs are iron pipes with powder coating treatment.
- The seat features good toughness, is pressure-resistant and crack-resistant, and does not deform after prolonged sitting.
- The iron frame boasts high strength, stable support and excellent load-bearing capacity.
- The powder coating is rust-proof and wear-resistant, not easy to peel, ensuring a long service life.
- The overall structure is lightweight and easy to move, non-slip and stable for safe use.
