

Double PUmp Rotary Separator

◆ Product Description

The high-efficiency double-pump rotary separation equipment has the advantages of high separation precision, stable operation, large processing capacity and low energy consumption, can quickly separate mixed materials, and is suitable for industrial production requirements.

◆ Product Advantages

- High separation precision
- Stable and reliable operation,
- Large treatment capacity
- Low energy consumption
- Convenient operation.

◆ Product Structure

Double pump linkage structure, stainless steel body, built-in precision separation cavity and variable frequency speed control module, sealed protection design, compact structure.

◆ Application Scenarios

Chemical industry, food processing, pharmaceutical production, environmental sewage treatment, separation of new energy materials, purification of industrial materials.

◆ Technical Features

Handling capacity: 5-20m³/H
 Separation accuracy: ≥ 98%
 Motor power: 3-7.5kW
 Speed: 1500-3000r/min
 Material: 304 stainless steel
 Working pressure: 0.3-1.0 MPa

Item#	Model	Weight
1.2.07.02.0010	948MAX-I	2.17kg
