

Curved Screen Prying Tool

◆ Product Description

Designed specifically for curved screen devices, it fits the curvature of the curved screen, is thin and tough with strong support. It can be inserted and pried along the edge gap to avoid damaging the curved screen frame and screen, and has strong adaptability.

◆ Product Advantages

- Fit the curvature of the curved screen
- Thin and tough without damaging the screen frame
- Resistant to bending without deformation
- Precise prying without damage
- Strong adaptability for dedicated screens and specific uses

◆ Product Structure

Made of flexible and wear-resistant material, the overall design is arc-shaped, fitting the curvature of the curved screen edge. The edge is smooth without sharp corners, with uniform thickness, and it combines toughness and support.

◆ Application Scenarios

It is compatible with the disassembly of curve-screen mobile phones and curve-screen tablets, allowing for the removal of the back cover and middle frame, avoiding the scratching of the curved screen edges by conventional prying tools. It is suitable for repair shops and after-sales scenarios.

◆ Technical Features

T=0.1mm.

Curved screen disassembly piece.

High-toughness prying pieces

Wear-resistant and bendable

Item Code (SKU)	Weight (kg)	Packing Detail
