

Fixture

◆ Product Description

Made of high-quality 304 stainless steel, adjustable clamping force, suitable for workpieces of various sizes, firm clamping without loosening, small size, suitable for various processing and maintenance scenarios.

◆ Product Advantages

- Material: 304 stainless steel
- Adjustable clamping force
- Suitable for workpieces of various sizes
- Firm clamping without loosening
- Strong acid resistance and no corrosion

◆ Product Structure

Composed of fixed chuck, movable chuck and adjusting screw, non-slip texture design on the chuck, smooth screw transmission, simple structure, convenient and stable disassembly and assembly.

◆ Application Scenarios

Applied in electronic maintenance, hardware processing, handcrafting and other scenarios, can fix circuit boards and small hardware parts, assisting in welding, grinding and disassembly.

◆ Technical Features

Material: 304 stainless steel

Clamping range: 0-48mm

Maximum clamping force: 98N

Product net weight: 115g

Acid resistance: No corrosion after 24h immersion in 5% hydrochloric acid

Core Features: Adjustable clamping force, secure non-slip grip, acid & corrosion resistant

Material code	weight	Packaging method	model
1.2.07.02.0019	0.36	One per box	T23
1.2.07.02.0020	0.36	One per box	T22
