

Dustpan

◆ Product Description

This plastic dustpan is moderately sized, sturdy and durable as a whole, with its edge fitting closely to the ground for easy cleaning and collection. It is suitable for gathering various types of daily waste, making it a practical tool for sanitation, cleaning and household sweeping.

◆ Product Advantages

- Lightweight and durable plastic material
- Fits close to the ground for thorough cleaning
- Large capacity for high-efficiency storage
- Stable structure, not easy to deform
- Easy to clean without trapping dirt

◆ Product Structure

It adopts an integrated plastic molding structure. The front shovel edge is straight, with a handle at the rear and baffles on both sides. It features ample capacity, a simple and firm structure, and stable use.

◆ Application Scenarios

Suitable for household living rooms, school classrooms, offices, community corridors, factory workshops and other places. Used with a broom, it can quickly collect dust, paper scraps, debris and other garbage.

◆ Technical Features

- Made of high-strength engineering plastic
- Good toughness and impact resistance, not easy to crack or break
- Moisture and corrosion resistant, not easy to age or deform
- Smooth surface, very convenient to clean and wipe
- Good load-bearing capacity, can hold various types of garbage
