

Electroplating Pen

◆ Product Description

This 24k gold plating pen adopts double concentration gold plating solution with uniform adhesion, easy to carry and operate, fast local gold plating repair, bright and lasting coating for precision parts.

◆ Product Advantages

- Double Concentration, Richer Gold Plating Effect
- Firm Coating, Strong Adhesion Not Easy To Fall Off
- Portable Operation, Usable Without Equipment
- Uniform Coloring, Bright And Flawless Surface
- Wide Application, Suitable For Multi-material Gold Repair

◆ Product Structure

It is a pen-type portable structure with built-in high-concentration gold plating solution, fine and controllable pen head, sealed and leak-proof pen body, uniform liquid output for fine gold repair work.

◆ Application Scenarios

It is suitable for electronic components, hardware ornaments, precision instruments and circuit repair, used for local gold plating repair and decoration to improve appearance and conductivity.

◆ Product Data and Physical Performance

Nib Material: Precision Liquid Penetration Nib, Uniform Liquid Output
 Liquid Material: Double Concentration Gold Plating Solution, Strong Adhesion
 Sealing Performance: Sealed Pen Body, Not Easy To Leak And Volatilize
 Coating Performance: Bright Coating, Strong Oxidation Resistance
 Usage Performance: Ready To Use, Fine And Controllable Operation

Material Code	Weight	Packaging
1.2.07.02.0030	0.15kg	1pc/bag
