

Laminating Film

◆ Product Description

This is an A4-size laminating film with moderate thickness. It contains 100 sheets per pack with binding covers, features high transparency and firm adhesion, and can protect documents and certificates from fading and damage for a long time.

◆ Product Advantages

- Moderate thickness, smooth and wrinkle-free lamination
- High clarity for excellent display effect
- Built-in cover sheet for easier use
- Tight adhesion, not easy to delaminate or bubble
- 100 sheets per pack, cost-effective
-

◆ Product Structure

It adopts a double-layer composite film structure with an adhesive layer in the middle. Both sides are smooth and highly transparent, with neatly cut edges. Equipped with a special cover sheet, it features good wrapping performance and is suitable for use with conventional laminating machines.

◆ Application Scenarios

Suitable for laminating and protecting documents, certificates, cards, awards, photos, teaching courseware, office forms, etc. It is moisture-proof, dirt-proof and fold-resistant, extending the storage life of materials.

◆ Technical Features

- Made of high-quality polyester film, eco-friendly and non-toxic
- High transparency, clear and non-blurry image
- Strong adhesion, stable heat sealing and not easy to delaminate
- Moisture-proof, scratch-resistant and fold-resistant, excellent protection effect
- Good flexibility, not easy to crack, suitable for long-term storage
-
