

ESD Bubble Sheet

Product Description

This anti-static bubble sheet, light and flexible, with anti-static and buffer protection, suitable for precision component packaging.

Product Advantages

- Qualified Static Value, More Comprehensive Protection
- Friction Voltage <100V, Stable Anti-static Performance
- Bubble Buffer, Scratch-proof, Moisture-proof And Anti-collision
- Flexible Texture, Easy To Cut And Fit
- Environmentally Friendly Material, Suitable For Various Packaging

Product Structure

It is suitable for electronics factories, semiconductor workshops, used for packaging components, instruments, electronic products to prevent static and collision.

Application Scenarios

It is suitable for electronics factories, semiconductor workshops, used for packaging components, instruments, electronic products to prevent static and collision.

Technical Features

Main Material: Anti-static PE Material
 Static Value: <math> < 1.0 \times 10^{11} \Omega </math>
 Friction Voltage: <100V
 Bubble Specification: Uniform And Full, Strong Buffering
 Material Characteristics: Flexible, Tear-resistant, Environmentally Friendly And Non-toxic

Item#	Size	Weight	Packaging
1.2.11.06.0019	50*22CM	0.004kg	Individual
1.2.11.06.0018	22*14CM	0.003kg	Individual
