

Plastic Beaker

◆ Product Description

Special plastic beaker for laboratory, acid and alkali corrosion resistance, high transparency, accurate scale, impact resistance, suitable for holding and mixing all kinds of experimental solutions.

◆ Product Advantages

- Acid and alkali corrosion resistance
- Accurate scale
- High transparency
- Strong impact resistance
- Safe use

◆ Product Structure

High borosilicate plastic/PP material, integrated injection molding, smooth inner wall, precise scale marking, thickened cup wall design.

◆ Application Scenarios

Chemical laboratories, biological experiments, industrial testing, teaching experiments, scientific research institutions, sample storage and mixing scenarios.

◆ Technical Features

Capacity specification: 50-1000ml (optional)

Temperature range: -20 °C ~ 120 °C

Material Code	Weight	packing
1.2.15.01.0545	0.015kg	1pcs
