

Nylon Cable Tie

◆ Product Description

This product is made of high-quality nylon with a width of 5.2 mm, 250 pieces per pack, and moderate length. It features a self-locking structure that is firm and durable, suitable for bundling and fixing cables and objects in various scenarios.

◆ Product Advantages

- Self-locking, firm and non-slip
- 5.2mm widened design with strong bearing capacity
- Sufficient packaging with high cost performance
- Good toughness of nylon material, not easy to break
- Easy to install, tight by one pull

◆ Product Structure

It features an elongated flat structure with a smooth and uniform body. The head is equipped with a self-locking buckle, the width is 5.2 mm, and the one-way locking design prevents rebounding or loosening after bundling.

◆ Application Scenarios

Widely used in electrical wiring, home appliance organization, warehouse packaging, gardening bundling, computer room cable management and other scenarios. It can quickly organize various pipelines and improve arrangement efficiency.

◆ Technical Features

- Made of high-quality nylon, eco-friendly, odorless and highly tough
- High tensile strength, not easy to deform or break under stress
- Aging-resistant and low-temperature resistant, suitable for various environments
- Smooth surface, safe to use without damaging cables
- Stable locking structure, not easy to loosen or slip after bundling
