

## ESD Hollow Board with ESD EVA

### Divider

#### Product Description

This anti-static hollow board + eva box uses anti-static hollow board as the box body and eva as the inner liner, with anti-static and buffer protection, light and sturdy for storage and transportation.

#### Product Advantages

- Anti-static + Buffer, Double Protection More Reliable
- Hollow Board Box, Sturdy, Light And High Load-bearing
- Eva Liner, Flexible And Scratch-proof To Protect Items
- Moisture-proof And Corrosion-resistant, Strong Adaptability To Multi-environments
- Stackable Storage, Save Space And More Convenient

#### Product Structure

It is a structure of anti-static hollow board box with eva inner liner, flat and sturdy box body, tight-fitting liner, stackable design with double protection and convenient storage.

#### Application Scenarios

It is suitable for electronics factories and clean laboratories, used for storing and transporting precision components, with double protection to avoid damage and static interference.

#### Technical Features

Upper Material: Blue Canvas + Canvas Lining  
 Midsole Material: White Polyester-cotton  
 Anti-static Fabric  
 Sole Material: SPU Solid Wear-resistant Sole  
 Surface Resistance:  $< 1 \times 10^9 \Omega$   
 Additional Feature: Plush Warm, Compliant Walking Voltage

Item#	Spec	Weight	Packaging
1.2.15.02.0097	910*470 MM	0.05kg	Individual
