

## Vacuum Pen Suction

### ◆ Product Description

The vacuum suction pen adopts the negative pressure adsorption principle. It is easy to operate, with uniform and stable adsorption force. It can quickly pick up small and thin objects without direct contact, avoiding damage to the objects.

### ◆ Product Advantages

- Negative pressure adsorption is stable
- The operation is simple and convenient
- Do not scratch objects
- The adsorption force is adjustable
- Lightweight and easy to carry

### ◆ Technical Features

Silver-gray  
each set of suction pens comes with 3 suction cups (3.5MM, 6.5MM, 9.5MM) providing strong suction power, and 3 straight metal needles

### ◆ Product Structure

It is composed of a suction nozzle, a vacuum chamber and a press-type suction structure. The suction nozzle is soft and fits the object closely. The chamber has good sealing performance and can be pressed smoothly. The overall structure is lightweight and convenient for one-handed operation.

Item Code (SKU)	Color	Size	Weight ( kg )	Packing Detail
1.2.16.00.0016	Silver	Long	0.015	1pc/bag

### ◆ Application Scenarios

It is suitable for picking up electronic chips, glass lenses, thin and light metal sheets, precision parts, etc., and is widely used in scenarios such as electronic assembly, screen repair, and precision manufacturing.
