

Portable Plastic Rack

Product Description

This portable plastic material rack is made of high-quality plastic, designed as 2-column type with total storage capacity of 60 pieces, 3 double-sided slot plates and 2 aluminum rods, portable and stable.

Product Advantages

- Portable Design, Convenient To Move And Carry
- 2-column Design, Sufficient Storage Capacity
- Plastic Material, Lightweight, Dirt-resistant And Easy To Clean
- Aluminum Rods Added, Stable And Durable Structure
- Double-sided Slot Plates, Suitable For Classified Storage

Product Structure

It is a portable plastic structure, made of high-quality plastic, 2-column design, equipped with 3 double-sided slot plates and 2 aluminum rods, portable, compact and stable for small items storage.

Application Scenarios

It is suitable for scenarios such as electronics factories and warehouses, used for storing various small parts and components, portable and movable, with sufficient storage capacity and orderly classification.

Technical Features

Main Material: High-quality Plastic
 Specification Configuration: 2-column Type, Total Storage Capacity 60 Pieces
 Slot Plate Configuration: 3 Double-sided Slot Plates
 Reinforcement Configuration: 2 Aluminum Rods, Stable Support
 Structural Features: Portable, Lightweight And Easy To Move
