

ESD Flat Storage Rack

Product Description

This anti-static flat turnover rack is black, made of anti-static conductive material, flat structure design, qualified surface resistance, high flatness, suitable for turnover and storage of light items.

Product Advantages

- Flat Structure, Convenient For Storage And Turnover
- Anti-static Conductive Material, Reliable Performance
- Black Appearance, Dirt-resistant And Easy To Clean
- Qualified Resistance, Effectively Protect Items
- High Flatness, Stable Load-bearing And Durable

◆ Product Structure

It is an anti-static flat structure, made of conductive material, black appearance, smooth surface, qualified resistance, compact and stable structure, suitable for turnover of light items.

◆ Application Scenarios

It is suitable for anti-static scenarios such as electronics factories, used for turnover and storage of light precision components, flat design for stacking, stable anti-static performance.

◆ Technical Features

Main Material: High-quality Anti-static Conductive Material

Product Color: Black, Dirt-resistant And Durable
Surface Resistance: 10E4-10E6Ω

Structural Features: Flat Design, Smooth And Flat
Usage Feature: Special For Turnover And Storage Of Light Items

Item#	Dimensions	Weight	Packaging
1.2.21.01.0002	410*290*25MM	5kg	individually
